An Innocent Man Hanged.

CONCLUSIVE EVIDENCE THAT ROBERT E. SPROULE WAS NOT THE MURBERER. Some few months ago there was great interest in the case of Robert Evan Sproule, formerly of Windsor, and who has a brother living in that town, who was tried for murder in British Columbia and after a short trial found guilty and sentenced to be hanged. His conviction was had purely upon circumstantial evidence. After

ly upon circumstantial evidence. After conviction certain legal objections were raised, one being that the court which tried him had no jurisdiction. The provincial supreme court refused this objection and the case came before the full bench of the supreme court at Ottawa, when the objection was held to be good and the discharge of the accused was ordered unconditionally.

This order the sheriff refused to recognize, and on the 28th of September last. Sproule was executed in spite of the protestations of Secretary Bayard. Since then certain evidence has come to light which proves that Sproule was innocent, and a large number of affidavits to this effect have been furnished. Feats Sproule, brother of the decreased and administrator and a targe number of amnavos to this effect have been furnished. Frank Sproule, brother of the decrased and administrator of his estate, has begun suit at Ottawa against the province of British Columbia for the sum of \$50,000 dhmages on account of the illegal hanging of the accused. Eminent council have been engaged, and is appears as though the attorpey general and the sheriff of that province will soon regret the hasty and cold blooded action then taken.

One strange thing in connection with the case, is that on the very day that Sproule was executed, a gentleman residing in Boston died, bequeathing him \$80,000. This fact was made known to the prisoner just before he went on to the gallows. The mine which Sproule owned was recently sold for \$35,000.

Senator Gorman has captured so much federal patronage in Maryland that as the Indiana Democrats are doing thi the Democrata of the State generally are rebelling against this one-man power. The Senstorial contest in New York is

very evenly balanced between the leading candidates while Mr. Hiscock seems to hold the key to the situation. If Judge Carter, Chief Justice of the District Court, resigns as now seems probable; it is said that Congressman Pucker, of Virginia, will succeed him if he desires the

"Jersey justice" has become quite proverbial in the past and a wholesome dose of impeachment judiciously administered to Gov. Abbett would go a long way to maintain the reputation of the State and would doubtless have a good effect.

A bill has just been introduced in the Illluois Legislature to regulate the manufacture, transportation and sale of explosives and providing severe penalties for any. Mr. Harrison will be signed by the Speaker violation of the law. In view of the late of the House, Lieutenant Governor Robertriot in Chicago a law of this character son and the Secretary of State; that of Mr. seems to be sadiy needed.

The New York World continues to urge the election of Roscoe Conkling to the Senate just as though it was serious. The World is a great newspaper, but that it can be silly at times is shown by the doubleleaded editorials that grace its columns almost daily on the Senatorship question.

Proper precaution for the preservation the people and to this end the State Board crate—that of having the presiding officers of Health make some important sugges-tions for the consideration of the Legislature. Among these suggestions is a law making it imperative on every town to sustain a board of health, having a physician as one of the members.

There seems to be no particular occasion Turple has aroused a storm of indignation for the Republicans to commit themselves to any ill advised taciff reform bill and we do not believe such to be their intentious Knights of Labor have four votes in the notwithstanding all the newspaper comment. In the first place if any other busineas is to be transacted there is not time for the long discussion that will ensue to enter the caucus it is authoritatively when this is once taken up, and a wrangle in the Democratic House will simply tend to keep business in a turmoil.

In addition to its proface denunciation of the Supreme Court the Indianapolis Sentinel now characterizes that body as by the nomines. In the case of usurper "pettifogging hair splitters" and "chattering owls." Had the Court consented to stultify itself the members would doubtless have been regarded by the Sentinel as eminent jurists. As Mr. Bontelle's "energy" in this matter had the effect of striking out the object tionable feature of the resolution he will probably lose no sleep on account of the Eagle's tremendous effort to be severa.

The fact that Gov. Abbett has lost ground in the Senatorial contest in New Jersey, by reason of his performance during the rictous proceedings of his party friends at the organization of the House, is and already there is talk of a conference to select a more feasible candidate. The Governor is bushly engaged in disclaiming any hand in the action of the policemen, but this denial seems to have been patched up to overcome popular indignation. At the time the police forcibly ejected members from the House when questioned as to their authority, p omptly replied "by orders of Leon Abbett, Governor of New Jersey." Here, as in Indians, Democratic lawlessness seems to have overreached itself.

The report comes from Washington that with possibly one exception all the Democratic members of the House Committee on Invalid Panalons will vote against the bill granting Mrs. Logan a penalon. It is further sald that the President is snatous for the House to defeat the bills of the smoon and the bulls for the smoon and the bulls for the sach him. Catarrh of its destructive force stinds next to and undoubtedly leads on to concumption. It is therefore singular that those affacted with this fearful disease should not make it the object of their lives to rid themselves of it. Deceptive remedies concocted by ignorant pretendent to medical knowledge have weakened the confidence of the great majorities of sufferers to all advertised. of the great majority of sufferers to all advertised of the great majority of sufferers head advertised remedies. They become resigned to a life of misery inther than torture themselves with doubtful politatives.

Entitles will never do. Catarrh must be met at very stage and combuted with all our might. In many cases the disease has assumed dangerous symptoms. The bones and cartiflags of the was symptoms. The bones and cartiflags of the was affected it to be useless, the uvulu as clongated, the catalance of the content the threat so influenced and irritated as to produce a constant and distressing cough.

Sanford's Endical Cure meets every phase of Catarrh, from a simple head cold to the most londhoome and destructive stages. It is local and constitutional. Instant in refleving, permissent in curing, as fe, economical and never-falling.
